## Testimonial for Catalyst

Today I was made to feel very old when I asked how long we had been customers and it was over 17 years.

We have always found Catalyst very helpful, knowledgeable and friendly. Having all our needs satisfied from one hardware/software supplier has eliminated any friction that could have occurred had we gone a different route. Platinum software is very user friendly and is always being developed and updated to meet customer ever changing demands. The hardware is very good quality and competitively priced and the hardware department always very helpful with configuration of 3<sup>rd</sup> party software such as antivirus and backup programs.

I have recommended Catalyst to at least 4 of my friends and I know they are happy to.

Kind regards

Stuart Bowers  
Operations Director
